To Whom It May Concern,

In response to your request, I am writing to certify the status of compliance to International Standards of Phytosanitary Measures Publication # 15 (ISPM-15) published guidelines on all wood packaging material, used in international trade.

It is the policy of Orion Industries Incorporated to not use solid wood packing material. Any and all export shipments will incorporate non-wood based pallets and corrugated boxes.

We believe this information is the best currently available on the subject. It is subject to revision as additional knowledge and experience is gained. Orion Industries makes no guarantee of results and assumes no obligation or liability whatsoever in connection with this information.

I trust this affirmation of compliance meets your present needs. Please let me know should you need something more.

Regards,
